

FLAWLESS NDT SERVICES

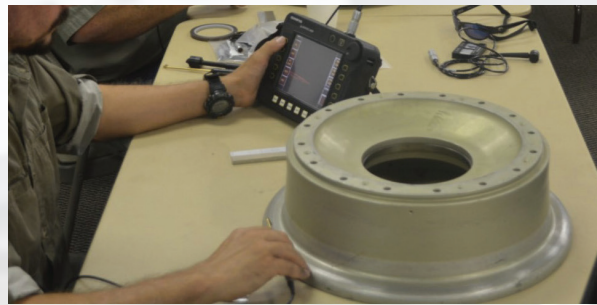

Eddy Current Testing

Our Eddy Current solutions provide surface examinations meeting a variety of aerospace and aviation applications and specifications. Whether it's inspecting aircraft bolt holes, steam or gas turbine compressor blades, we are partnered with the leading manufacturer of eddy current equipment which means that our inventory includes the latest equipment and calibration standards to meet your requirements.

Eddy Current Inspection (Aerospace Applications)

- ✓ Conductivity Measurements
- ✓ Low and High Frequency Flaw Detection Inspections
- ✓ Bolt Hole Inspection
- ✓ Materials Sorting

Advance Ultrasonic Composite Testing | NDT Consulting and Training | Advanced Radiography Testing | Vendor Surveillance
