

FLAWLESS NDT SERVICES

Digital Radiographic Testing

Level 3 Associates offers an advanced state of the art radioscopic techniques utilizing Digital Radiography (DR) and Computed Radiography (CR). Our X-ray capability includes conventional x-ray systems as well as Micro Focus Radioscopy, which allows ranges from low to high energy (15 Kvp to 400 Kvp) and focal spot sizes as low as 7 microns for superior magnification and high-resolution detail.

Digital Radiography allows for a wide range of materials to be successfully examined using our advanced equipment, expertise, and in-house technical support, to inspect your components and deliver the results that you need in a timely fashion. When cost and efficiency are key drivers we stand ready to assist.

Digital Radiography Applications Laboratory

- ✓ DR, CR, and Real Time Radiography
- ✓ Large X-ray vault rated less than 2mr @500Kvp
- ✓ Micro-focus Radiography for superior magnification detail and definition.
